CBW<sup>®</sup> Traditional Dark Dry (Malt Extract) is a brewing grade malt extract made from only the finest brewing grade base and specialty malts that has been special processed to create a clean, intense malt flavor. The intensity and purity of flavor make CBW<sup>®</sup> Traditional Dark the extract to use in applications where malt is a dominant part of the flavor system, or where a high malt intensity is desired at low usage levels, such as in confectionery or malt beverages. CBW<sup>®</sup> Traditional Dark provides valuable nutritive carbohydrates, proteins and free amino nitrogen as well as vitamins and minerals. Its larger granulation, increased dispersion, clean flavor and light color make it ideal for brewing and beverage applications.
