|-------------------|--|
| <b>THE MALT</b>   | <b>BEST Munich Dark</b> gives a pleasant full-bodied and malty flavor. The impact when using this darker malt is similar to BEST Munich: the color is even more intensified, the malt aroma is strengthened. Enzyme richness of this malt offers opportunities for brewing strongly colored beers. The production process for this malt is similar to the lighter variant of our BEST Munich.  |
| <b>USE</b>        | For all darker beer styles like Alt, brown ale, dark ale, dark wheat, stout, dark lager, amber and bock beer   |
| <b>RATE</b>       | 100 % of the grainbill   |
| <b>PACKAGING</b>  | In bulk, sacks size 25 kg/55 lbs and 50 kg/110 lbs, super sacks size 500-1,000 kg/1,100-2,200 lbs  |
| <b>SHELF LIFE</b> | At least 24 months under dry conditions (max. 20 °C/68 °F, max. 35 % RH).  |
| <b>SERVICE</b>    | Should you need personal assistance, one of our experts will be happy to advise you. Please do not hesitate to contact us with any questions. Or find more information on our website at <a href="http://www.bestmalz.com">www.bestmalz.com</a> .  |
| <b>REMARKS</b>    | <p>All of our malts are produced in accordance with the purity guidelines of the German Reinheitsgebot of 1516. We use no genetically modified raw materials. Our malts are produced in compliance with all valid food regulations and legal provisions. Of course, absolute compliance with strict statutory limits relating to pesticides, herbicides, fungicides, mycotoxins and nitrosamines is guaranteed. This is checked by independent laboratories on a regular basis.</p> <p>All processes are conducted according to procedures that are stipulated in our quality management system in accordance with the European standard DIN-EN-ISO 9001:2008. This also comprises a HACCP system. Certification of the systems is performed regularly by the LGA InterCert.</p> <p>Malting barley and wheat are natural products. This means that the specifications given here are subject to seasonal variation and are based on a minimum level of quality for the harvested grain. Please find more information on our website at <a href="http://www.bestmalz.com">www.bestmalz.com</a>.</p> |

**STANDARD MALT SPECIFICATIONS** (the values are harvest dependant)

| Specification                 | Unit       | Minimum     | Maximum     |
|-------------------------------|------------|-------------|-------------|
| Moisture content              | %          |             | 5,0         |
| Extract fine grind, dry basis | %          | 80,0        |             |
| Fine-coarse difference EBC    | %          |             | 2,5         |
| Viscosity (8,6%)              | mPa·s      |             | 1,60        |
| Protein, dry basis            | %          | 9,0         | 12,0        |
| Soluble nitrogen              | mg/100g    | 650         | 800         |
| Kolbach index                 | %          |             | 47,0        |
