

Dear Madam/Sir

Re: Allergen

Following your inquiry regarding Allergens, I am writing to outline Simpson's Malt's current position on this matter.

Simpsons Malt produces malted cereals i.e. barley, wheat, oats or rye, which all contain gluten. Those gluten containing cereals are never in contact with any other food allergens including milk, eggs, legumes e.g. peanuts, tree nuts e.g. cashew nuts, fish products, shellfish, seeds e.g. sesame seeds, herbs and spices.

The only other potential allergen is SO₂ which is only present in peated malted barley.

Should you have any queries on this or any other matter please do not hesitate to contact me.

Yours faithfully

For and on behalf of Simpson's Malt Limited

Pierre-Antoine Kantor

Malting Specialist

A handwritten signature in black ink, appearing to read 'PA Kantor'.

JOHN GUTHRIE
Specialist Malting since 1986
